Detroit, Mich., Oct. 29.—Attorneys for Frank C. Eliza Winder of Los Angeles, Cal., and ex-Sheriff James Hanley and David Neiderlander of Detroit called at the recorder's court to qualify on the bond. But the sum total of the real estate offered by the three as a pledge only amounted to \$100,000. Judge Murphy ruled that Andrews must furnish two bondsmen who would be able to qualify for \$100,000 each. He also ruled that Winder could not qualify on account of his being a non-resident. Accordingly Andrews remains in the Wayne county jail.

MEXICO MAY ADOPT GOLD BASIS

Seeks Aid in Wall Street to Rehabilitate Currency.

New York, Oct. 29.—The Mexican government has been sounding some of the large banking houses in New York with a view to procuring enough gold to rehabilitate the Mexican currency system. There is no immediate intention of placing Mexico on a gold basis, but Wall street believes that this is a step in that direction. Mexico is practically the only nation—with the exception of China—that has not accepted the gold standard. The larger its foreign trade grows the poorer it is becoming, owing to the depreciation of its silver dollar, which is quoted at only 35 cents. Mexico is forced to pay for all its imports in gold, while it must sell its goods for silver.

**BELOIT CITIZEN
SELIS GOLD MINE**

F. L. Preston Returns to Wisconsin Enthusiastic Over Gold Fields Near Boulder, Col.

(Special To The Gazette.) Beloit, Wis., Oct. 29.—F. L. Preston, a resident of this city, who is an extensive property owner in the West, has just returned to this city, and announces the sale, which has just been closed, of a gold mine near Boulder. The consideration involved was two hundred thousand dollars, spot cash. In addition to that he received stock in the company amounting to two millions. The parties concerned in the deal are from Topeka, Kan.

Mr. Preston has owned this property for the past thirteen years and has always had the greatest confidence in its richness, believing it equal to the Cripple Creek diggings. Miners are now crowding each other in their haste to reach the spot, and enter upon operations.

In addition to his realty holdings, Mr. Preston is the inventor of a stamping machine for stamping gold from the tailings, and one royalties from it add considerably to his income, making him more than independently wealthy.

Last spring the Preston family was brought into the public eye by several justice court cases in which his daughters were concerned. At the time that a prohibitive bicycle ordinance was passed the mud in the streets was so deep as to make ordinary traffic impossible. The two girls resolutely disregarded the ordinance, riding upon the walks as before. Consequently they were repeatedly arrested until the streets became passable again, when they abandoned the walks.

Milwaukee, Oct. 29.—Arthur, the 14-year-old son of H. O. Riverung, a traveling man living on the Whitefish Bay road near Lake Woods, shot and killed a large American eagle in the woods near his home. The lad ventured into the woods surrounding his home armed with a 22-caliber single action rifle to test his marksmanship on sparrows and other small members of the feathered tribe. When he reached the steep bluff overlooking the lake, about half a mile from his home, his attention was attracted by the scream of an eagle soaring but a short distance above him.

Unaware of the nature of the game he was attempting to bag, but with the instinct of a sportsman the youngster fired. The bird hesitated in its flight, fluttered and fell to the ground about half a mile away, while the boy followed, bent on capturing his prey. When he reached the eagle it was still alive. Though weak from loss of blood and exhaustion it attacked him, but was quickly dispatched by a second shot from the rifle of the young marksman. The eagle measured 7 feet and 9 inches from tip of tip of its outspread wings and was so heavy that its slayer was compelled to summon help to bring his quarry home.

KENT & GRA

PLAINVILLE CASE IS FULL OF SNAGS

LOVE AFFAIRS MAY BE CAUSE

Alleged Infatuation of Married Daughter Is Given as Motive for the Killing, Which Is Done With a Toy Target Rifle.

Quincy, Ill., Oct. 29.—Plainville's murder mystery deepens. Although Millard F. Lester has been arrested charged with the murder of Frederick M. Larimore, who was shot down in front of his home in the village of Plainville, the mystery is not solved. The trouble seems to lie in the multiplicity of motives and the lack of any definite proof.

The evidence against Lester is purely circumstantial. Bloodhounds followed a trail through the orchard from which the shot that killed Larimore was fired to a hitching rack to which Lester's horse was tied on the night of the murder. Lester knew that his daughter, the young wife of Alva McKee, was infatuated with Larimore. Once he tried to force a quarrel with Larimore over the matter.

Larimore's love affairs were numerous and friends and relatives of other young women are known to have been angered against him.

Lester has been released on \$10,000 bond, signed by his daughter, Mrs. McKee, pending a preliminary hearing on Nov. 5. He has returned to his home near Plainville. He will not talk about the case, and acting under the advice of his attorneys he refused to discuss the matter in any way except to declare his innocence and say he will prove it when the trial is held.

There is no clue which may lead to the solution of the mystery. The bullet hole in Fred Larimore's breast was made by a ball from a small target rifle. There are several such rifles in Plainville, but the owners of them are not suspected. The rifle with which the shooting was done has not been found, and it is believed that it has been thrown in some well or ravine.

Bloodhounds Follow Trail. Examination of the scene of the murder shows that the assassin stood in an orchard close to the walk and fired when his victim passed in front of him. Bloodhounds were placed on the trail thirty hours later. They followed the trail from the orchard through a field and along the road to a hitching rack near a schoolhouse.

Three times they were taken back to the orchard, and three times they followed the trail to that hitching rack. Lester's horse was hitched to that rack that night. Before Lester's lips were sealed by his lawyers he said he could not account for the action of the dogs.

Detective Theories. Detectives allege that Lester's motive for killing Larimore was the infatuation of his daughter, Mrs. Alva McKee, aged 20 years, for Larimore. She was in Chicago with her husband on the day of the murder, on their way home from a sanitarium at Battle Creek, Mich. McKee's health had been bad for several months, and he went to the sanitarium six weeks ago. His wife was with him there most of the time, stopping at a hotel.

The letters led to the arrest of Lester. The detectives learned that knowledge of the infatuation of his daughter and Larimore was in possession of Mr. Lester. They also learned that July 4 at Hull, where Larimore was filling an engagement with the Plainville band, Lester had sought a quarrel with him and insisted that the young man's attentions to the young wife must cease.

Mrs. McKee refuses to talk about the case in any way. She is at her home near Plainville with her husband. She sides with her father.

Last night the Maroons indulged in the first scrimmage of the week. Both varsity and scrubs got into the game with fine spirit, but neither succeeded in scoring.

Pony bowlers of the Wisconsin State Tenpin League will hold their annual tourney in Milwaukee, January 11 to 15.

Another big shake-up is scheduled for Iowa University this week, and it is expected that almost every member of the team, including even Captain Hollenbeck, will be given a new position. The new placing of the men is expected to strengthen the team 50 per cent.

Wisconsin and Michigan have only met three times previously. The resulting scores were as follows: 1892—Michigan 10, Wisconsin 6. 1893—Wisconsin 34, Michigan 18. 1899—Wisconsin 17, Michigan 5.

It is now believed that Driver will not play the whole of the Saturday game if any, and the halves will probably be Juneau and Liljequist, with Vanderboom at full.

Coach Vest is now drilling his men on a steady defense that will not fall down when it is set up against Wisconsin's stone wall.

Purdie has begun to lose hope of success against Northwestern; the practice this week has been ragged.

My Friends Know Heart Cure Cured Me.

Mrs. C. O. Hurd, 118 W. Third St., Muscatine, Ia., is well known throughout her section of Iowa as an ardent worker in the M. E. Church. She says: "LaGrippe left me with a severe case of nervous depression and nervous dyspepsia, which soon affected my heart. I suffered from sleeplessness, headache, extreme nervousness and twitching of the muscles. The slightest exertion would cause shortness of breath, a numbness of my body and hot flashes with pain. I will tell you what I am constantly telling my friends—that Dr. Miles' Heart Cure cured me so that all these disagreeable symptoms left me. I may add that for severe pain I have never found anything to equal Dr. Miles' Anti-Pain Pills and think the Nerve and Liver Pills are a wonderful stomach remedy."

"Our son was stricken down with heart trouble in his twentieth year. For two months we got no sleep with him at night, so we commenced to use Dr. Miles' Heart Cure and Nerve and Liver Pills and today he is sound and well. In fact he passed a physical examination since his sickness and is with the Army in the Philippines. I desire to add that Dr. Miles' Anti-Pain Pills have certainly been a boon to me. I am frequently troubled with sick and nervous headaches and I have never found anything that would relieve me so quickly and leave me feeling so well thereafter."—Mrs. Alice Moad, Buffalo, Mo.

DEATH HAS COME TO W. H. TALLMAN

PIONEER PASSED AWAY AT 2:30 THIS MORNING.

WAS SEVENTY YEARS OF AGE

Deceased Was One of This City's Leading Business Men—Death Due to Heart Trouble.

William Henry Tallman, one of Janesville's most prosperous and highly esteemed citizens, died at his home, 158 S. Academy street, at 2:30 o'clock, Monday morning, after a long illness. He was 70 years of age. He had been suffering from heart trouble for some time, and the attack came on suddenly. He was a native of New York, and had lived in Janesville for many years. He was a member of the First Church of Christ Scientist, and was a very active worker in the church. He was also a member of the Janesville Chamber of Commerce, and was a very active worker in the city. He was a very kind and generous man, and was very popular in the city. He was a very successful business man, and was a very active worker in the city. He was a very kind and generous man, and was very popular in the city. He was a very successful business man, and was a very active worker in the city.

A severe attack on Sunday afternoon was followed by another on Monday, and from the latter one the elderly gentleman never rallied. Monday evening his condition became so serious that his son, William T. Tallman, and his wife were summoned home from their cottage at Lake Koshkonong, where they had been spending the past two weeks. The other son, George, is on a camping and hunting trip in the woods of northern Minnesota, and so far efforts to reach him have proved unsuccessful, although a messenger has been sent out into the woods from Duluth.

Deceased was seventy years old and was one of the pioneers of this city. Coming here in the vigor of young manhood, he took an active part in the upbuilding of the city's business interests. He was one of the founders of the Empire Drug store and for many years carried on the manufacture of perfumes and flavoring extracts in the building which old residents will always know as the laboratory in spite of the fact that it has been a tobacco warehouse for many years.

William Henry Tallman was born in New Haven, Conn., Feb. 15, 1832, and his infancy was spent in New Haven and New York City. When he was five years old his parents moved to Rome, N. Y., where he was educated in private schools, the public school being but little known and less thought of at that time. He early showed inventive ability and mechanical skill and when fifteen years old he entered a drug store as a clerk, remaining there for three years. At that time machinery was little used and all pills were rolled by the fingers and cut with a spatula.

Mr. Tallman came to Janesville on May 1, 1851, joining his parents, who made the trip west in the preceding year, and making the trip overland from Milwaukee by stage. On the ninth of the following August he purchased a third interest in the drug store of Holden, Kemp & Co., the firm transacting business under that name until 1857, when a change was made and the firm became Tallman & Collins, proprietors of the Empire Drug store, which still retains the name.

In 1854 the firm sold out its retail business and devoted all energies to the manufacture of perfumes, flavoring extracts, plasters, etc. In 1857, Mr. Tallman, then in the wholesale business by himself, made an exhibition of his manufactures at the Paris exposition and his case of goods received the only honorable mention awarded the United States for perfumes.

In January, 1882, Mr. Tallman went to New York and associated himself in business with George Kemp, succeeding his former partner, William Kemp, who had recently died. After fourteen months in New York, Mr. Tallman felt that his health was being affected and he returned to Janesville, retiring from active business and remodeling the laboratory into a tobacco warehouse.

A rare friendship and devotion existed between Mr. Tallman and William Kemp and George Kemp, and Mr. Tallman felt the death of his former partners very keenly. It is believed that the death of George Kemp, about a year ago, had a serious effect on Mr. Tallman's health and aggravated the attacks which caused his death.

Deceased was married on Sept. 11, 1851 to Miss Maggie J. Travis and his devoted wife and two sons, William T. and George, survive him. He was a prominent member and liberal supporter of the Congregational church, serving as deacon for many years. He was also one of the organizers of the first sack company in the volunteer fire department and was later made an honorable member of the company.

Mr. Tallman was a business man of the strictest integrity and the highest sense of honor and he won the sincere esteem of all who were associated with him. By his death Janesville loses one of its representative citizens.

Funeral arrangements have been delayed in the hopes of hearing from George Tallman and the announcement of the funeral will be made later.

AN ORCHESTRA AT HIGH SCHOOL

SIXTEEN STUDENTS START REHEARSALS FOR WINTER.

TO PLAY AT ENTERTAINMENTS

Mrs. Hyde Is Drilling Them, and They Promise Very Well.

Mrs. Hyde, the instructor in music in the public schools, feels assured that the High school orchestra will prove a success. The players who have volunteered their services, all seem to be good musicians and with diligent practice will probably be capable of playing more than acceptably. All have entered the work with great enthusiasm, and are regular in their attendance on the nights assigned for practice.

Owing to the fact that band, orchestra and mandolin club instruments are all playing together, Mrs. Hyde has found it difficult to find music properly arranged, but this difficulty will probably soon be remedied. The players are all willing and eager to perfect both themselves and the orchestra, and to make the most of the advantage of Mrs. Hyde's assistance.

Play for School Only

No engagements outside of the school entertainments will be entered into by the orchestra. The first public occasion on which they will play which has been definitely decided upon is on December 6. The occasion is that of the Rock county teachers' association meeting.

While the following instrumentation has not yet been positively decided upon, the various parts are now being taken by the following players, forming an orchestra of sixteen pieces.

The Players
Violins: Laurence Doty, Will Ryan, Gertrude Paul, Nellie Decker, Otto Dreyer.

Mandolins: Anna Smith, Lulu Stoddard, Anna Erickson, Kramer Doty, Marion Paul, Lillian Crowley.

Coronet: Guy Lewis.
Baritone: Verne Murdoch
Guitar: Harold Hall. Genevieve Shoenaker.

Piano: Cora Soverhill.

"TERRIBLE TURK" CAME TO CITY

Wished to Secure Match with Boisjoly—Will Leave Preliminaries in Hands of Moran.

Young Youseff, the "Terrible Turk," came to Janesville last night in the hope of arranging a wrestling match with Boisjoly. He was very disappointed to learn that the French-Canadian had gone to Beloit, but he will enter into correspondence with him at once, and hopes that a meeting can be secured before long. He has given over authority in the matter to George Moran of Beloit who will make the preliminary arrangements with the Canadian and decide upon a time and place for the match.

No Place in Janesville

Youseff was sorry to learn that it would be practically out of the question to hold the match here. He said that the only reason that he could make with Manager Myers for the use of the opera house was so exorbitant that he could not think of holding the match in that place, and there seems to be no other available building in the city. He had found, so he stated, that the Janesville audiences were cordial in their attitude toward him, and he would like to wrestle here against a man who was more nearly his equal in weight and strength than Schott, although he professed no doubt of his ability to throw the Canadian, or anyone else that might care to meet him.

Will Leave Watertown

As soon as Youseff has met Boisjoly, if the match can be arranged, he intends to leave Watertown where he is now staying, and will go to Marshfield where he expects to meet some big wrestler, and from that place he will make his way to Milwaukee and Chicago. Youseff said that he never saw or even heard of Boisjoly until he first read of the Canadian's coming to this city. If that is true there is little chance of any prearrangement between them.

The case of Thomas Earl's lawsuit against Joseph Harmon and against C. F. Matthias, garnishee for Joseph Harmon, was adjourned to Oct. 31.

ELECTION NOTICE.

To The Electors of Rock County:

Notice is hereby given that a general election is to be held in the several towns, wards, and election precincts in the county of Rock, on the 4th day of Nov., 1902, at which the officers named below are to be chosen. The names of the candidate for each office to be voted for, whose nominations have been certified to this office, are given opposite the title of the office and under the appropriate party or other designation, each in its proper column, and the questions submitted to a vote are stated below.

INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters. A voter upon entering the polling place and giving his name and residence, will receive a ballot from the ballot clerk which must have indorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. If it be a general election these words are to follow:

The voter if he wishes to vote for all the candidates nominated by any party, should make a cross mark X under the party designation printed at the top of the ballot in the circle made for that purpose. A ballot so marked, and having no other mark, will be counted for all the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased or a cross mark be placed in the square under the name or at any place in the space occupied by the name or names of candidates in another column, and will be counted for any name written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark under the name of each candidate he desires to vote for, or at any place within the space in which the name is printed. If he wishes to vote for a person for a certain office whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memorandum to assist the voter in marking his ballot can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same, to be chosen by the voter; and if he declares that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:

GRIFFIN'S ENGLISH NOT WELL CHOSEN

Withdrew His Plea of Not Guilty to the Charge of Using Obscene Language.

John Griffin was brought up in the municipal court room this morning on the charge of using obscene and abusive language, the hearing of the case having been postponed from yesterday. Yesterday he put up a plea of not guilty, but when he saw the array of witnesses in court this morning his memory was refreshed and he reversed the plea.

Mr. Griffin will be allowed to spend the next thirty days in jail to reflect upon the advantages of the use of elegant English. Judge Field accompanied the decree with a stern admonition to the effect that it will be well for Griffin to bridle his tongue in the future. If he wishes to escape a more severe penalty.

Case Adjourned.
The case of William Winkley vs. J. A. Decker was held over until this afternoon, for a hearing. The suit is for the payment of a promissory note, for the principal of which, amounting to three hundred, it is alleged is still due, as well as interest amounting to over one hundred dollars additional.

Shooting, In Limits.
Herbert Pierce was fined \$7.60 for shooting within the city limits. He said that he did not know where the limits were, but as the shooting was done near the southern end of South Jackson street, his excuse did not do away with the offense. Chief Hogan has said that he will make every effort to put an end to the promiscuous use of firearms within the city limits which has been prevalent of late.

All local Odd Fellows are requested to be present to give them hearty greetings.

New Superintendent Here: Otis H. Clough arrived in the city yesterday and has assumed his duties as superintendent of the American Cement Post company. The plant will be started up under his management in the near future. Mr. Clough is the oldest son of H. H. Clough, of the Interurban line, who is also interested in the Cement Post plant. The elder Mr. Clough, H. W. Morgenthau, of Cincinnati, and other members of the company were in the city yesterday and thoroughly inspected the newly completed plant.

Began Her Lectures: Miss Louise Phelps Kellogg of Madison began her series of lectures before the Monday club Monday evening and talked tentatively and instructively of the condition of Europe about the middle of the fifteenth century and of the meaning and application of the term, Renaissance. The lecture was given in the parlors of the Congregational church and was enjoyed by a large company of interested young women. Miss Kellogg is a charming speaker and her lecture did far to be one of the most interesting club features of the present season.

LIFE'S CARES ENDED

James Mansur
One of the prominent older citizens of Janesville, James Mansur, passed away at his home on Hyatt street as the result of an illness beginning with typhoid fever, and ending with more severe complications. The end came at six o'clock this morning. A notice of the funeral will be given later. Before any further arrangements can be made word must be received from the children in Oklahoma and Minnesota. One of his daughters, Mrs. Dr. Fowle of Central City, Col., was with him during the last sad moments. A son, Will, lives in Oklahoma, two children, Sarah and Charles are in Northern Minnesota.

Mile M. Thayer
Funeral services for the late Milo M. Thayer will be held from the West Bluff street home tomorrow afternoon at 2 o'clock. Olive Branch lodge, No. 36, A. O. U. W., will attend the funeral in a body.

TALK ABOUT TOBACCO

If current reports are to be taken as authoritative there are tobacco dealers in this state who will soon awake to the fact that the statement is not literally true that there is always tobacco to be had. If the crop continues to be absorbed by the rate it now is it cannot be helped but be consumed soon. Slow packers can begin to see that the crop is gradually receding, and as the largest manufacturing concerns still remain as active as formerly, the amount of tobacco which can

raisers have in their hand is rapidly growing less.

During the last week nearly three hundred acres of tobacco changed hands, at an average price of nine cents, probably more being sold above that figure than below. The buyers have shown such eagerness to purchase that the price naturally instantly began to rise above the eight cent figure which formerly prevailed.

For curing the weather has been excellent and the earlier leaf is now ready for stripping. The warehouses are now making their preparations to open considerably earlier than usual. In the old leaf there have been a number of sales of the 1900 crop, but of this there is only a little left. The 1901 crop has been freely sampled, but sales so far have been very few, though the market is expected to commence today.

WILL ISSUE NO NEW STOCK

Companies Have Had Close Connection in the Past, But Rupture Takes Place Over Contract for Distribution of Output of Mines.

Pittsburg, Pa., Oct. 29.—Negotiations are under way for a merger of the Pittsburg Coal company and the Monongahela River Consolidated Coal and Coke company, with their combined authorized capitalization of \$110,000,000 and assets of \$120,000,000. Consolidation of these interests will launch by far the strongest bituminous concerns in the world. The combined coal output of the two concerns is close to 30,000,000 tons a year.

The plan is to make the Pittsburg company lessee and the purpose to economize operations. Successful termination of the deal will end the trade rivalry which has existed between the two companies, under or on the surface.

Split Over Contract.

Early this year the two interests se prolonged the unsatisfactory negotiations for renewal of the contract of other years, whereby the Pittsburg company took the output for rail shipment of the river company, that they split over it. Through the failure to come to terms, former President Frank M. Osborne of the Pittsburg Coal company stepped in and contracted for the rail output of the River company. This coal is now being furnished from seven mines at the rate of 125,000 tons a month.

The negotiations which are now on to bring the two big interests together are understood to be between two men, President Francis L. Robbins of the Pittsburg Coal company and Col. J. B. Finley, president of the River company. A day may develop something more tangible.

To Merge on New Lines.

The matter has not yet gone before the directorate of either company, so far as can be learned.

The tentative plan is to merge the two companies and at the same time eliminate one of the seemingly fundamental principles of such moves, which is the issuance of a new and increased lot of stock to cover the combined issues of the constituents. While the Pittsburg company will probably become the investor interest, there is no present purpose to issue new stock of the Pittsburg company to take over that of the River company. Anything like a stock watering deal is to be eliminated.

Stock Goes Up.

When the two big companies were forming at the same time there was an effort to make them one, but this was in part blocked by the purpose of the River company to float a bond issue of \$10,000,000. Since then several efforts have been made, but always on different lines from those now intended, and which are more promising of success.

If Mr. Robbins and Col. Finley come to terms it will be no difficult matter to secure the approval of the directors and stockholders of the two companies.

Rumors of a pending deal reached Fourth avenue and the stock of the River company sold higher, while that of the Pittsburg company was what the brokers call heavy, yet firm.

ROOSEVELT IS GOING TO VOTE

Will Visit Oyster Bay and Attend Big Masonic Reception.

Washington, Oct. 29.—President and Mrs. Roosevelt will move back into the historic White House next week. Four or five of the remodeled living rooms in the second story of the mansion are now nearly ready for occupancy. President Roosevelt will leave for Oyster Bay next Monday. He will cast his vote in his home village on Tuesday and on Wednesday will attend a big Masonic celebration in Philadelphia, returning to the capital either Wednesday night or Thursday morning, when he will find his family established in the White House.

WOULD CLOSE BERLIN SALOONS

Claim Excess Laws Would Wipe Out 15,000 Drinking Places.

Berlin, Oct. 29.—In order to induce the reichstag not to pass the new excess laws the Berlin Saloonkeepers' league has prepared a great petition which states that the proposed bill will compel 15,000 out of Berlin's 19,000 saloons to close. It is also pointed out that this will cause serious loss to those engaged in the liquor industry and to hundreds of handiworkers.

Thinks Churches Will Unite.

It is the opinion of Rev. H. T. Stephens, a member of the faculty of Kansas City university, that a union Missouri conference of the Methodist Protestant churches, and possibly of the United Brethren, primitive Methodists and Cumberland Presbyterians, will be accomplished within a few years.

FACTS ABOUT TURKEYS.

(From Country Life in America.)

There is a great diversity of opinion as to whether the rearing of turkeys is profitable in America. Not infrequently the mortality of turkeys is so tremendous, and quite sufficient to eat up any possible profits. But there are persons who for years have raised almost every chick, and under these circumstances rearing turkeys yields a very fair return.

It is a mistaken idea to suppose that turkeys do not thrive in confinement. Some of the best fanciers of those birds practice yarding successfully. Of course, the space in which the turkeys are enclosed should not be too small, not less than from one to three acres for a moderate sized flock. One advantage in yarding is that it enables the breeder to get all the eggs laid by the hens. Another is that it facilitates the protection of the chicks against the attacks of hawks and predatory animals. It is commonly supposed that because a turkey will fly up a tree to roost, it would fly over the moon if it saw a grasshopper on the other side. A turkey will fly over anything on which it can alight, but it will not attempt to fly over a wire-netting fence as it cannot see anything to rest its feet upon. As an Illinois lady pointed out in a leading poultry journal not long ago, turkeys will travel along a women's picket fence half a day at a time to find a place to get out. Turkeys may be prevented from flying over a fence by attaching a light board or shingle, ten inches long by five inches wide to their backs by means of soft, flat springs run through the wings. By this method the birds can be easily confined as sheep or other small stock without injury. When not allowed to run at large turkeys need something in the nature of gravel as grinding material.

Turkeys can be fattened in a week or ten days. In this country they are usually fed all the corn they can eat three times a week to bring this about. But in England the birds are principally fed upon mixtures of equal parts of barley-meal and wheat-meal, made into a crumbly mass, either with skim milk or water. The use of skim milk for this purpose has been largely on the increase of late years, as it has been found that its employment leads to the production of a beautifully white and fine quality of flesh.

Considering the little labor required in raising turkeys, they pay very well, despite the large mortality among the young birds, and it is surprising that they are not more extensively bred. With the continual increase in our population and decrease in the acreage available for grazing, it is a foregone conclusion that there will be a corresponding increase in the demand for turkey keys and other fowls. The breeder of these birds will therefore never lack a market.

The selection of a breed depends largely upon the demands of the market. Of course, when one is compelled to regard turkey rearing from a

commercial standpoint fancy may be given a free rein. Some turkeys are as ornamental on a lawn as peacocks. I have in mind a Maryland greenward sloping down to a tidal creek that served as a background for a flock of pure white turkeys. Nothing could have been more beautiful than the effect produced.

Vintage Is a Failure.

London, Oct. 29.—Heldsleek & Co. of Rhodins, France, report that the 1902 vintage of champagne has been an absolute failure and will rank as one of the blackest vintages in the experience of champagne growers.

Epidemic of Measles.

St. Petersburg, Oct. 29.—There is an epidemic of measles on the Kamchatka peninsula. Ten thousand persons have died of the disease and the populations of some country villages have been nearly wiped out.

Son Dead, Mother Dying.

Bearmouth, Mont., Oct. 29.—James Conn, a wealthy ranchman on Willow Creek, was found shot to death in his home. His mother lay upon the floor with her skull crushed in and cannot live.
